## Newspaper Vending

***Change is inevitable  
But not always required***

Today's people want to be informed, to maintain an up-to-date knowledge of the world around them. **QI Systems' SmartKit** for Newspaper Vending (**SKNPV**) increases their access to this knowledge. With **SKNPV**, consumers can buy newspapers using Cash Cards issued by **VISACash** and **Mondex**, eliminating the need to carry coins for yet another of life's daily small change transactions.

**SmartKit for Newspaper Vending (SKNPV)** is part of **QI's** line of **SmartKit®** modular payment systems. **SKNPV** supports Cash Cards by **VISACash** and **Mondex** with custom support available for proprietary cards. **SKNPV** is a member of the **SmartKit** Unattended Point of Sale (UPOS) product family. It can use the same payment module used in devices as diverse as vending and coin-laundry machines.

**SKNPV** provides benefits to both the customer and the operator. Card payment is quick and convenient. It improves customer satisfaction and will result in a sales lift. In addition, reducing or eliminating coins in the system reduces costs and improves security for both revenues and employees.

<b>SKNPV Features:</b>	
✓	Works with coin payment or alone.
✓	Can support a Liquid Crystal Display or LED indicators.
✓	Battery powered.
✓	Tolerant of heat, humidity, vibration and electrical fluctuations.
✓	Conforms with <b>VISACash</b> and <b>Mondex</b> specifications. Proprietary card support also available.
✓	Includes an electronic journal of 500 transactions.
✓	Supports portable data retrieval via <b>Qlink®</b> handheld device or merchant accumulator card.
✓	Can be configured for field retrofit or for new equipment.

Newspaper vending boxes of varied design are in use around the world, representing another application of our modular design concept. **QI** can quickly develop a solution to the specific requirements of most publishers or equipment manufacturer.
